Summary	Save soil Movement is a movement initiated by Sadhguru to save sour soil from extinction. To make people aware of the condition of the soil, Sadhguru did a 30,000km ride on a motorcycle from London to India in 100 days. He traveled to 27 countries and did 600 + events with leaders and influencers. To be aware about the save soil movement our Rotaractors participated in the webinar under Project Hope.
