

World Ozone Day

Date: Sep 16, 2017

Venue: College Premises

Faculty Coordinator Rotaract: Simran Kaur

Faculty Coordinator Eco-Club: Poojan Bathla

No. of Participants: 20

World Ozone Day is observed on September 16, every year. It is celebrated to spread awareness among people about the depletion of the Ozone Layer and search for possible solutions to preserve it. Rotaract Club & Eco Club of DSPSR celebrated World Ozone Day on September 16, bringing together Rotaractors, Rotarians, environmentalists and enthusiasts from across the college on a mission to plant 20 trees in college premises. To drive further awareness on this topic, a discussion on the ecological impact of ozone depletion, ways to conserve the ozone layer and the importance of tree planting was also conducted.
